

Services

Metcomp provides consulting services which create custom computer solutions to automate your office and personalized computer training to advance your skills.

Our mantra for success is "Preperation. Performance. Results." and we place special emphasis on the preparation. Without researching your goals any solution would be a shot in the dark.

Consulting

We create customized solutions to fit your needs and situation. We strive for process elimination, simplification, and automation to enable your company to expend your efforts where it is needed. This saves you time and money and will improve your business.
